Speculation on 'Change Taking a Back Seat Till After the Election.

Dallness Taken Advantage of to Raid Leading Shares-At Indianapolis Cereals Not Encouraging-Other Business Firm.

THE BOND MARKET.

Railroad Issues Firming Up, with Sale Reaching \$1,224,000. At New York yesterday money on cal was firmer at 5@6 per cent., the last loan

being made at 6, closing offered at 6. Prime mercantile paper 54 @6 per cent. Sterling exchange was firm, with actual business at \$1.8312 for sixty-day bills and \$4.80 % for demand.

The total sales of stocks were 166,000 shares, including the following: Chicago Gas, 60,000; Distillers, 26,000; Illinois Central. 5,600; New England, 23,600; Northern Pacific preferred, 9.000; Reading, 16,200; St. Paul, 12,600; Sugar, 6,200.

Speculation at the Stock Exchange was less active than for some time past, and the dullness is attributed to the near approach of the presidential election, which occupies the attention of the street to the exclusion of almost everything else. The duliness was taken advantage of to raid the leading shares, which, however, yielded per cent.. outside of New England Lake Shore, American Sugar and Northern Pacific preferred, the decline in which was about a point in each case. Final sales were at a recovery of 's to 's. A few stocks moved independently of the fluctuations just noted, scoring higher quotations and holding advance well to the end. Illinois Central rose 21/2, to 108; New York Central moved up from 111 to 111%, but reacted to 1114. There was a lively demand for New York. Susquehanna & Western, the common and preferred both advancing a point. The widest changes of the day were in Ohio Southern. which advanced 44 per cent to 36 on rumors that the company had obtained the pecessary capital to extend its system. The industrial group was quiet and quotations closed same as Tuesday. The market closed steady in tone.

Railroad bonds were firm, sales amounting to \$1,224,000. Reading issues were weaker. Detroit & Bay City and Altona firsts declined 3 to 60, and Houston & Texas debenture fours rose 21/2 to 801/2.

Government bonds were quiet and State bonds dull. Closing quotations were:

Proper Feed for Hens. American Poultry Journal.

A pint of whole wheat to every twelve fowls is sufficient for an evening meal, and should be thrown among leaves or chaff to make them scratch for it. Raw meat should be given three times a week. A cabbage fastened by a string and suspended from the center of the hen-house, just high enough to make them jump for all they get. is an excellent thing. In short, any means that can be devised to make them work for their feed, with the exception of their morning meal, and even that should be light, simply giving enough for an appe-tizer, will be found of great benefit to them.

Feature of the Chicago Markets Was a Strong Rally in All the Pits.

r. J. Ryan, Who Was Short 1,000,000 Pounds in the October Ribs Deal, Says He Will Not Settle at the Arbitrary Top Figures.

TRADING AT CHICAGO.

When Wheat Began to React Corn Grew Stronger with It. CHICAGO, Nov. 2.-A strong rally, after an interval of depression, was the feature of to-day's markets. The strength extended into all pits, lifting both cereals and provisions. Price changes from last night, however, are not remarkable. In wheat at the start there was apparently a general feeling of discouragement and free liquidation increased by rains throughout the winter wheat district. December was the weakest and fell to 6c discount on May, against 516c difference yesterday. Counselman was out with a statement that all reports connecting his house with an intended squeeze of that month are utterly without foundation, and that he really feels very bearish on the market. This was followed by weak cables, which increased the depression and the selling was for a time argent and vicious. The opening was 4c lower, and prices declined & @ se more, raliying later about &c. and closing steady &c from the top. Reports from the Northwest are generally agreed as to a heavy decrease in farmers' deliveries, but country elevators and side-tracks are so crowded that the effect of that on Minneapolis and Dutluth receipts is not expected to show for some time yet. A good deap of December wheat held by Councilman-Day was changed by them into

Corn was weak during the first hour and sold off sharply, influenced largely by the downward tendency in wheat, for all other conditions were favorable. The receipts were nearly one hundred cars less than estimated, and rain was reported everywhere in the corn belt, but the slump in wheat carried corn with it. Later, when wheat began to react, corn quickly followed, and was further strengthened by the smallest estimate for to-morrow, only 250 cars. Opening trades were at 18 @ 4c advance, but prices sagged 4@10, reacting later 14@ sc. ruled quiet, changed some and closed with a fractional gam. Oats were steady most of the day. The receipts were only 173 cars, and the estimate

for to-morrow was for only 140 cars. The close was at 4@'sc above yesterday's There was sharp action in the provision market most of the session. It was not unexpected. The trade knew that the Cudahy-Wright people were after the Ryan & Co. pork. Many think this line was sold out this morning. There was a break of 20c and then the market went soaring. Compared with last night pork is 15c higher, lard .17 2 @.25c and ribs .07 3c. T. J. Ryan to-day admitted that he was a trifle over 1,000,000 pounds short on the October ribs deal. He also said that he did not propose to settle at the arbitrary price fixed on Monday. The vigor with which he was pushed in the pork pit to-day may or may not have some bearing on the ribs deal.

There was a good demand for vessel room and rates to Buffalo advanced 404c, to 2% @24c for wheat and 24c for core. Estimated receipts for to-morrow are: Wheat, 270 cars; corn, 285 cars; oats, 150

To prepare artificial food for bees, sift thirty pounds of granulated sugar in fifteen pounds of boiling water, stirring constantly. When the augar is all added and the water still boiling, remove the mixture from the fire and stir in five pounds of honey, which will prevent granulation. This method is one promulgated by an experienced bee-keeper, and is one of the best Nature rotates crops. When the forest

oaks and hickory have been removed a thick growth of evergreens appears. In New England, where white pine forests have been removed, the maple, chestnut and oak have aprong up. A similar rotaby blue grass. Exclusive grain farming may pay well

DAILY, SUNDAY AND WEEKLY.

The Journal is first of all a newspaper. Its primary object is to publish the news. and to secure this it spares no pains or expense. Besides the service of two great news agencies, which cover foreign countries as well as the entire United States, it has a corps of Special Correspondents, who give attention to those events and occurrences that are likely to be of particular interest to the Indiana public. Its Washington bureau was established for the purpose of looking after matters in which the State and its people are concerned, and is under the management of an Indiana mag well acquainted with the local business and political issues. It has a correspondent in every town of importance in the State, and is constantly increasing its facilities for obtaining information from every quarter. Its staff of city reporters is large, and its local departments are unexcelled. As a news paper it is far better equipped than any other in the State, and welcomes comparison with its contemporaries in any and all of its departments. With all is endeavors to be accurate and trustworthy, printing the news, whatever it may be, without personal or partisan

But while the Journal is non-partisan as to news, it is a Republican paper, and sets forth Republican principles. It is important that the people shall read the truth about these principles, and it was with the object of putting everybody in the way of doing so that the price of the

No other method of securing a Republican victory at the polls is so certain as the circulation of Republican papers among voters. Since the reduction in the price thousands of subscriptions have poured in from all parts of the State, showing that a need was supplied. In order to have the proper influence and effect upon voters seeking for trustworthy information the Journal should go into their hands at once, and not next spring or summer. Clubs are being formed and agencies established wherever daily mails reach, and as rapidly as traveling agents can visit the places, but Republicans in each and every locality cannot do their party greater
